WORK EXPERIENCE

Nousot

Chicago, Illinois

Software Engineer, Intern

May 2022 - Jul 2022

- Collaborated with a team of interns and project managers to efficiently complete complex projects on time, through effective task delegation and coordination.
- Received valuable feedback from company-wide presentations and incorporated it into final project versions, resulting in improved quality.
- Developed front and back-end features for the company website using React JS and JavaScript.
- Utilized Python scripting to extract data from the company's finance API and generate output in Google Sheets.
- Enhanced programming skills in Python and JavaScript during the internship.

Nousot

Chicago, Illinois

Software Engineer, Intern

Jun 2020 - Aug 2020

- Communication, work ethic, responsibility, and professionalism were critical to completion of all tasks on time and to exact specifications given the fully remote internship platform.
- Learned skills crucial to creating a time series with real world data scraped from the internet and analyzing them using Python scripts.

KBC Law Group

Chicago, Illinois

Law Clerk / I.T. Troubleshooter

Jun 2017 - Aug 2019

- Worked three summers assisting attorneys and staff with day-to-day email, network, and print/scan related issues.
- Organized hundreds of files and printed various documents and case file evidence.
- Was part of a team of 15 co-workers covering various issues and multiple case filings, under deadline, where accuracy and precision were critical to success.
